### A.5. AIMS AND ACTIVITIES OF THE ORGANISATION

A) Please provide a short presentation of your organisation in relation with the activities covered by the project.

*The Universidad de Granada (UGR) was founded in 1531. As a classical university with around 80,000 students, 3,600 lecturers, 1,900 administrative and support staff, the UGR offers a wide range of courses at undergraduate and postgraduate level. Every year over 5,000 international graduate and postgraduate students choose the UGR to take full study programmes and approximately 2.800 students come to the UGR for different exchange periods via the approximately 800 network and bilateral exchange agreements in which the UGR is involved. The UGR is the leading European university in number of Erasmus students received, and is one of the few universities that have received the Erasmus Gold Star Award in recognition of its contribution to the programme.*

*Due to its long-standing tradition, geographical location and high standards in teaching, research and service to society, the Universidad de Granada (UGR) regards internationalisation as one of its strategic aims. The UGR takes part in a wide number of mobility programmes and co-operation projects with the European Union and Third Countries. The UGR participates in a vast number of international projects financed through different EU programmes such as the Seventh Framework Programme (FP7), Lifelong Learning Programme (LLP), Tempus, Alfa, LLP, Interreg, Erasmus Mundus, etc... In addition to this, the UGR is a full member of numerous international networks and associations such as the Coimbra Group, UNIMED, EUA, AUI, EAIE, EPUF, AUIP, PEACE, AIEA, ORION, PEACE, etc*

B) Please describe the role of the organisation in the project (max. 1000 characters)

*As the coordinating institution, UGR will be fully responsible for the implementation of the project and, in particular, carry out the following activities:*

- Communication with the EACEA*
- Financial management and reporting*
- Planning and organizing of meetings*
- Setting-up and maintenance of the project website*
- Coordination of the promotion, marketing and dissemination activities*
- Awareness raising campaign in the Maghreb, contacting also consulates and EU-Delegations*
- Assistance for partners, associates, potential applicants and selected grantees*
- Coordination of the selection process and measures for quality assurance*
- Organization of cooperation, knowledge transfer and outreach activities*

*As home and host institution for grantees, UGR will also be in charge of the correct implementation of the mobility flows, sending of invitation and acceptance letters, organizing welcoming and tutoring activities, monitoring of the grantees, management of the lump sum share and the scholarships, etc.*

C) Key staff involved and specific role played in the project management (*this must include administrator and academics / research staff*). Please add the respective CVs to the application form. (*max. 8 individuals*)

#### A.5. AIMS AND ACTIVITIES OF THE ORGANISATION

A) Please provide a short presentation of your organisation in relation with the activities covered by the project.

The University of Bologna is one of the European leading university in the management of international cooperation projects and in the last 5 years has been selected as coordinator and partner in a large number of European programmes such as Erasmus Mundus, Erasmus Mundus External Cooperation Window, Tempus, ALFA; Asia Link, V FP-VI FP-VII FP, LIFE, Atlantis, Eu/Canada, LLP, Jean Monnet, Leonardo da Vinci and Minerva. Some of these projects have dealt with the management of large consortia (Socrates thematic networks: such as ACUME I and II, LLP structural network such as Joiman, Alfa Structural Projects such as Vertebralcue; EMECW like EADIC, lot 16 and EADIC II lot 13a) and considerable grants (from 25.000 to 12 millions of euro). In addition, University of Bologna results respectively the first and the fourth European university according to the numbers of outgoing and incoming students participating to the Erasmus programme.

Within the Erasmus Mundus Action II programme, the University of Bologna has been actively participating to 14 partnerships, one of which as coordinator (lot 16/13a Argentina). A special Unit dedicated exclusively to the Erasmus Mundus Action 2 projects has been set up in 2009. The Erasmus Mundus Unit is in charge of the implementation and management of the projects at the University of Bologna.

B) Please describe the role of the organisation in the project (*max. 1000 characters*)

The University of Bologna, as a partner institution of the consortium, will implement the project in cooperation with its partners and contribute actively to the accomplishment of the objectives of the EM Action II programme by participating in all the partnership activities such as:

- attendance and participation in consortium meetings
- establishment of a Local Operative Unit
- promotion, marketing and dissemination activities
- selection and evaluation process
- implementation of the mobility flows and assistance to applicants and nominees in the different mobility phases: visa application process, invitation and acceptance letters, welcoming activities, tutoring, language assistance, assisting in housing issues, etc.

The University of Bologna will also promote mutual understanding among the partner universities and the involved countries and people aiming at enhancing political, cultural, educational and economic linkages. Furthermore, opportunities to develop joint degrees programmes and joint supervision of doctoral students will be explored during the lifetime of the project and beyond. Other outcomes and new collaboration channels among the partner universities will be actively promoted and supported.

C) Key staff involved and specific role played in the project management (*this must include administrator and academics / research staff*). Please add the respective CVs to the application form. (*max. 8 individuals*)

#### A.5. AIMS AND ACTIVITIES OF THE ORGANISATION

A) Please provide a short presentation of your organisation in relation with the activities covered by the project.

The University of Coimbra (UC) has a large and successful experience in managing European and other trans-national projects, not only as a partner but also as coordinator. It is partner in several university networks and its scientific activities are developed in the context of internationalisation. International, inter-personal and inter-institutional networks, and the projects developed in cooperation with other universities are reflected in its teaching and research activities so as to foster innovation and update of learning contents, project incubation, curriculum development and training. It has a Central International Unit (DRI) with a large experience in managing international cooperation programmes, student and staff mobility. Last year more than 460 students have experienced a period of study abroad and around 1100 exchange students have experienced a period of study in Coimbra. Moreover, internationalisation is everywhere apparent in UC's daily life due to the commitment of its teaching staff and researchers and to the atmosphere created by the gathering together, on a permanent basis, of students, teachers and researchers of different cultural backgrounds from all around the world (16% come from 77 countries). DRI assures the quality of all administrative procedures concerning the applications of outgoing and incoming students (scholarship management, registration, enrolment, issuing of transcript of records, etc.); it offers students information on language courses and degree programmes, cultural and sports activities. Students are provided with accommodation in university residences or are given support in finding private housing. DRI helps also students to get in touch with the local coordinators and to make part of the academic community more easily. Through the Postgraduate Mobility Centre, DRI provides customised assistance to researchers, postgraduate students and staff. The UC offers a wide range of degree programmes (adapted to the Bologna Model) in almost all study fields, as well as specialised R&D units for doctoral and post-doctoral research activities. DRI is aware of different problems faced by the applicants to obtain residence permits (visa) and its staff is well-prepared to support the applicants to solve those problems before their departure.

B) Please describe the role of the organisation in the project (*max. 1000 characters*)

The University of Coimbra, as a partner institution of the consortium, will implement the project in cooperation with its partners and contribute actively to the accomplishment of the objectives of the EM Action II programme by participating in all the partnership activities such as:

- attendance and participation in consortium meetings
- establishment of a Local Operative Unit
- promotion, marketing and dissemination activities
- selection and evaluation process

- implementation of the mobility flows and assistance to applicants and nominees in the different mobility phases: visa application process, invitation and acceptance letters, welcoming activities, tutoring, language assistance, assisting in housing issues, etc.

The University of Coimbra will also promote mutual understanding among the partner universities and the involved countries and people aiming at enhancing political, cultural, educational and economic linkages. Furthermore, opportunities to develop joint degrees programmes and joint supervision of doctoral students will be explored during the lifetime of the project and beyond. Other outcomes and new collaboration channels among the partner universities will be actively promoted and supported.

#### A.5. AIMS AND ACTIVITIES OF THE ORGANISATION

A) Please provide a short presentation of your organisation in relation with the activities covered by the project.

The University of Göttingen maintains 1,275 cooperations with 450 partner universities in 102 countries around the world. About 42% of the students currently enrolled in the 45 international Master and PhD programmes obtained their previous education abroad. Among many of the excellent and integrative MSc./PhD programmes, there are several Dual Degree Programmes which have been established with foreign Universities under the support of the EU (Erasmus Mundus programs "SUFONAMA", "EUROCULTURE", "FONASO", "ASTROMUNDUS") or German Academic Exchange Service DAAD (MSc. in Sustainable International Agriculture, MSc. International Nature Conservation) and others (e.g. MA Double Degree in Intercultural Studies financed by DAAD, Chinese Scholarship Council, Asia-Link-Project). In many cases, the theses are being conducted with joint supervision. Göttingen has been participating in Erasmus-Mundus Action 2 partnership projects since 2008 in Triple I project, since then Göttingen participated in 5 EMA2 projects in 2009, and in 2010 Göttingen participated in 7 EMA2 partnership projects including one coordinating lot 11-Asia Regional- EXPERTS: Exchange by Promoting Quality Education, Research and Training in South and South-East Asia. With this Göttingen was able to cover more than 200 mobilities in last three years.

The university currently participates in 10 STREPs (Specific targeted research projects), 6 NoEs (Network of Excellence), 3 IPs (Integrated Projects), 11 Marie-Curie-Projects and 7 CPs (Collaborative Projects). It also hosts numerous international programmes financed by the EU and the German Research Foundation (GRF): 5 Collaborative Research centres, 15 Research Training Groups (RTG) with 10 RTGs lead by Göttingen scientists, and 10 so-called Emmy Noether Groups.

The University of Göttingen enjoys an excellent reputation as a university with great strengths (90th position in the Shanghai-Ranking worldwide, fourth among the German universities, 43th position in the Times Higher Education ranking, first among the German universities, ninth in Europe) It is one of the nine promoted universities in the Excellence Initiative of the German Federal and State Government and is one of the three German universities with exemplary and innovative concepts in the framework of the "New Ways Ahead in Teacher Training" programme (Central Agency for Evaluation and Accreditation). Recently, three liaison offices were set up in Pune (India), Nanjing (China) and Seoul (South Korea), increasing the international visibility of the Göttingen Research Campus. In addition, the University of Göttingen participates in prestigious networks, like the Coimbra-Group and also maintains a worldwide alumni network.

In 2010, the University of Göttingen took part in the HRK (German Rector's Conference) audit "Internationalisation of Universities" in order to define further measures and objectives of internationalisation in such a way as to form a consistent and complete strategy- "Internationalisation 2012". Among other measures, it is devoted to the development of an internationalisation strategy for the university as a whole, including ways to get non-university institutions involved

The University of Göttingen also has been actively participating in LLP projects, e.g. Leonardo da Vinci, Comenius, Grundtvig (IDIAL), Tempus and also has experience in other projects like Asia Link, Edulink, ALFA (América Latina – Formación Académica, Alßan (América Latina Becas de Alto Nivel), eContemptplus and is partner in

several EMA2 projects. All these projects conducted by the University of Göttingen show that the university is experienced in managing international student and scholar exchange.

#### A.5. AIMS AND ACTIVITIES OF THE ORGANISATION

A) Please provide a short presentation of your organisation in relation with the activities covered by the project.

The University of Graz is an institution with a strong international profile. Close ties with almost 500 universities worldwide form the basis for the mobility of students, faculty and staff and numerous joint projects in teaching and research as well as organizational and curriculum development. By participating in various educational programs and networks within the European Union the university co-operates successfully with about 300 European partner institutions. As the only Austrian higher education institution, the University of Graz proves its role as an innovative and reform-oriented force within the COIMBRA Group and the UTRECHT Network. It has developed profound experience in working together with international partners in a variety of projects for many of which the University of Graz also acts as the coordinator. For example, in the TEMPUS application round 2008 the university was successful with its project proposal "Example of Excellence in Joint (Degree) Programme Development in South Eastern Europe".

In the 2009 application round for the Erasmus Mundus External Cooperation Window, the project proposal of the University of Graz within Lot 10 (Western Balkans) was granted by the European Commission with the University of Graz acting as the project coordinator. In the 2010 call for applications within Erasmus Mundus Action 2, the project proposal for lot 10, submitted by the University of Graz as the coordinating institution, was again granted. Additionally, the university has been a member in a number of other EMECW and EMA 2 and is the coordinator of the EMA 1 programme "Master's programme in Industrial Ecology – MIND". It is also involved in the EMA 3 project "TRANS-DOC - TRANS-Atlantic and TRANSferability aspects of DOctoral training".

#### A.5. AIMS AND ACTIVITIES OF THE ORGANISATION

A) Please provide a short presentation of your organisation in relation with the activities covered by the project.

Alexandru Ioan Cuza University of Iași is the oldest higher education institution in Romania. Since 1860, the university has been carrying on a tradition of excellence and innovation in the fields of education and research. With over 38.000 students and 800 academic staff, the university enjoys high prestige at national and international level and cooperates with over 250 universities world-wide. Alexandru Ioan Cuza University is the first student-centered university in Romania in compliance with the Bologna Process; the full-scale use of the ECTS has been implemented for 13 years now. Alexandru Ioan Cuza University has been at the forefront of the national debate and helped adopt the three-cycle system (implemented by Alexandru Ioan Cuza University at all levels since 2005/2006) and the Diploma Supplement. Many programmes and courses are taught in foreign languages. For the last years, Alexandru Ioan Cuza University has gone through a process of deep restructuring of its services and non-academic departments, together with a profound rethinking of the whole academic-related financial procedures, including decision-making. Faculties have become largely independent and responsible for the management of their funds. These initiatives led to significant changes in curricula flexibility. In accordance with its mission and strategic objectives, with its widely-recognised academic status of excellence in education and scientific research, Alexandru Ioan Cuza University is firmly committed to its policy of internationalisation. Alexandru Ioan Cuza University is a member of some of the most important university networks and associations: the Coimbra Group, Utrecht Network, EUA - European University Association, International Association of Universities, University Agency of Francophony and the Network of Francophone Universities (RUFAC). These partnerships represent the opportunity to develop joint academic, research and strategy programmes and increase student and staff exchange mobility both in terms of quality and quantity.

B) Please describe the role of the organisation in the project (*max. 1000 characters*)

The Alexandru Ioan Cuza University, as a partner institution of the consortium, will implement the project in cooperation with its partners and contribute actively to the accomplishment of the objectives of the EM Action II programme by participating in all the partnership activities such as:

- attendance and participation in consortium meetings
- establishment of a Local Operative Unit
- promotion, marketing and dissemination activities
- selection and evaluation process
- implementation of the mobility flows and assistance to applicants and nominees in the different mobility phases: visa application process, invitation and acceptance letters, welcoming activities, tutoring, language assistance,

assisting in housing issues, etc.

The Alexandru Ioan Cuza University will also promote mutual understanding among the partner universities and the involved countries and people aiming at enhancing political, cultural, educational and economic linkages. Furthermore, opportunities to develop joint degrees programmes and joint supervision of doctoral students will be explored during the lifetime of the project and beyond. Other outcomes and new collaboration channels among the partner universities will be actively promoted and supported.

#### A.5. AIMS AND ACTIVITIES OF THE ORGANISATION

A) Please provide a short presentation of your organisation in relation with the activities covered by the project.

With over 21,000 students, the ULB's seven Faculties, Schools and specialised Institutes cover all disciplines and all study cycles, from bachelors to PhD and continuing education, and closely combine classroom teaching and research.

The 150 masters courses taught at ULB are based on transdisciplinarity, internationalisation, collaboration and multilinguism. All masters courses include an end-of-course dissertation, work or personal project giving evidence of the student's capacity for independent and critical thinking, his/her personal qualities and professional competences.

The doctorate includes doctoral studies aimed at achieving a high-level scientific and professional qualification. Doctoral studies are supervised by teams linked to doctoral schools run on an interuniversity, interdisciplinary and international basis and thereby offering high-level scientific supervision. Around 500 research units are active in various fields of pure science, humanities and medicine. Between 1500 and 1800 doctoral students are doing their PhD's and on average 150 doctoral theses are defended each year.

ULB is responding to the new challenges of the European research and higher education area by combining tradition and innovation, the rigour and methodologies that have always been its research and teaching strengths, by opening itself to the emerging needs of society, of science and technology, by preserving its conception of education as public property and the university's social, civic and ethical dimension. In addition, ULB promotes the creation of joint Masters programmes and the development of thesis co-advisorships with other Belgian, European and international universities.

ULB's international cooperation is founded on 335 Socrates/Erasmus agreements, 328 bilateral institutional agreements, some 100 international research projects and a series of priority partnerships and networks. At ULB 26 % of its students, 9 % of its teaching staff, 36 % of its researchers, 41% of its PHD students and 10 % of its administrative staff are from abroad.

#### A.5. AIMS AND ACTIVITIES OF THE ORGANISATION

A) Please provide a short presentation of your organisation in relation with the activities covered by the project.

The University of Poitiers has a long tradition of international cooperation: 16% of the total student populations international (3800 out of 24000) 50% are female students, 35% are from Africa, the fist largest group from non EU countries, mainly from French speaking countries (Asia 26% and North Africa 18%).

About 28% of international students are enrolled in Master 2, 12% in PhD programs and 45% PhD ordered. Most of them are selected by both, the third country institution and the University of Poitiers and must meet the requirements detailed in MoUs signed by both institutions. As to specific cooperation with EU universities involved in the project, the University of Poitiers has been member of the Coimbra Group of Universities since its foundation in 1985, the University of Poitiers has exchange programmes with all the Coimbra Group universities and many of other universities in Europe and North Africa with a high level of student teacher mobility, not to mention other EU programmes such as Tempus and Erasmus

#### A.5. AIMS AND ACTIVITIES OF THE ORGANISATION

A) Please provide a short presentation of your organisation in relation with the activities covered by the project.

The Université Jean Monnet (UJM) enrolls some 14,000 student within its diploma offer (about 300 national diploma programs from undergraduate to doctorate level). About 15% of the students are non-nationals and come from 109 foreign countries. A high proportion of them come from Africa and Asia.

The university is composed of 5 faculties (arts, letters and languages, humanities and social sciences, law, sciences and technology, and medicine) and 4 institutes: Institut Supérieur d'Economie d'Administration et de Gestion, Télécom Saint-Etienne, and two university institutes of technology (IUTs) in Saint-Etienne and Roanne.

Shaping the university's science policy are 422 faculty members and research scholars organized into thematic research units. Thirty teams are active in the principal academic disciplines, seven cross-disciplinary areas, and two very broad thematic areas (chemistry and health). Several laboratories are mixed units supported by two of France's national research bodies, CNRS and INSERM.

The university has six accredited doctoral programs: health science and technology (in collaboration with ENMSE and ENISE); literature, language, linguistics, and arts (with Lyon 2, Lyon 3, and ENS LSH); history, geography, regional planning, archaeology, sociology, anthropology, and political science (with Lyon 2, Lyon 3, and ENS LSH); education, information, communication, and psychology (with Lyon 2, Lyon 3, and ENS LSH); law (with Lyon 2 and Lyon 3); and economics and management (with Lyon 1, Lyon 2, Lyon 3, and ENS LSH).

Predocctoral research training is provided by some 40 accredited teams and centers and by 55 Research Masters representing the nine scientific departments.

B) Please describe the role of the organisation in the project (*max. 1000 characters*)

The University Jean Monnet, as a partner institution of the consortium, will implement the project in cooperation with its partners and contribute actively to the accomplishment of the objectives of the EM Action II programme by participating in all the partnership activities such as:

#### A.5. AIMS AND ACTIVITIES OF THE ORGANISATION

A) Please provide a short presentation of your organisation in relation with the activities covered by the project.

The SMBA University has been created in Fez in 1975. It's one of oldest and prestigious universities of Morocco. It is governed by law 01.00 which organizes the higher education and allows it to enjoy a great autonomy of management and operation.

The Sidi Mohammed Ben Abdellah University accommodates this year 19045 new students of all the areas of the Kingdom as well as many friendly countries all over the world. Actually, the number of the students registered at the SMBA University is 56762. The academic staff of this university exceeds 1274 teachers, and the administrative staff is about 776.

The SMBAU gathers twelve faculties and schools and exempts multi-field and specialized teaching. It offers a higher number of training programmes: 72 bachelors, 66 Masters and 16 training Doctorates.

The SMBAU is strongly implied in the national training programmes such as "offshoring 2010" and "Initiative of 10 000 engineers".

Also, the university has set up a technological platform "Regional Center of Interface of university (CURI)" which aims to make the university / industry relation most strong, to promote the technology transfer and to valorize the research results.

B) Please describe the role of the organisation in the project (*max. 1000 characters*)

The USMBA, as a partner institution of the consortium, will implement the project in cooperation with its partners and contribute actively to the accomplishment of the objectives of the EM Action II programme by participating in all the partnership activities such as:

#### A.5. AIMS AND ACTIVITIES OF THE ORGANISATION

A) Please provide a short presentation of your organisation in relation with the activities covered by the project.

Founded in 1997, Hassan 1st University of Settat (UH1) is one of the youngest universities in Morocco, it has about 11000 students, 300 teachers and 250 administrative staff researchers.

The UH1 houses within six universities with potential for high material and human level. Thus we note the presence of Settat Faculty of Science and Technology offers a solid grounding in the various fields of science and technology, the Faculty of Juridical, Economic and Social which trains lawyers, economists and business managers and the National School of Business and Management whose mission is training senior executives in the areas of marketing, sales, finance accounting audit and offshoring.

To implement its policy of regionalization and especially its offer professional training, Hassan 1st University in 2005 launched a core academic Khouribga by creating a Faculty polydisciplinary providing diversified training. This core has been consolidated in 2007 with the opening of the National School of Applied Sciences Khouribga providing training in engineering in line with the national socio-economic needs. The year 2007 also saw the start of a third core academic Berrechid by the establishment of a School of Technology providing professional education in industrial and management techniques.

#### A.5. AIMS AND ACTIVITIES OF THE ORGANISATION

A) Please provide a short presentation of your organisation in relation with the activities covered by the project. Founded in 1985 and formally constituted by Charter in 1987, the Coimbra Group is an association of long-established European multidisciplinary universities of high international standard committed to creating special academic and cultural ties in order to promote, for the benefit of its members, internationalisation, academic collaboration, excellence in learning and research, and service to society. The Coimbra Group was one of the first associations to develop fully-fledged Erasmus Programme activities, and has wide experience in exchanges of researchers, teachers and students.

The most recent projects as a co-ordinating organisation were:

- An Erasmus Mundus Action 4 project, BALANCE (Bologna - A long-term Approach to New Certification in Europe), completed in October 2009, now followed by the TRANS-DOC project;
- A Tempus project, RE-FORM, a joint Moroccan-European initiative to create a forum for debate, mutual exchange of experience and good practice, and the foundation for future inter-university co-operation with exchanges of students and academics. The project was completed in May 2008.

The CG has also been a partner in initiatives carried out by the association's members, the most recent ones:

- AUDIS (African Universities International Dimension Strengthening), an Edulink project co-ordinated by the University of Padova and involving 12 African universities, focused on capacity building of International Relations Offices at African higher education institutions. The project was completed in November 2009;
- VM-BASE, (Virtual Mobility Before and After Student Exchanges) aimed at raising the quality of student exchanges by offering virtual support, both before and after the physical mobility. The project was funded under the Socrates Programme (Minerva Action) and was completed in September 2008.

B) Please describe the role of the organisation in the project (*max. 1000 characters*)

The Coimbra Group will assist the co-ordinator mainly in the dissemination of activities by publishing relevant information on its website, its monthly newsletter and by contacts with its members and relevant sister organisations. It will also participate and cooperate in quality assurance if requested to do so.

C) Key staff involved and specific role played in the project management (*this must include administrator and academics / research staff*). Please add the respective CVs to the application form. (*max. 8 individuals*)

#### A.5. AIMS AND ACTIVITIES OF THE ORGANISATION

A) Please provide a short presentation of your organisation in relation with the activities covered by the project.

AUF (Agence universitaire de la Francophonie) is an association of universities and research centres. It aims to construct and consolidate a Francophone scientific space through several cooperation programmes that have a common objective of supporting research and education. With its headquarters in Montréal and Paris, AUF federates a network of 774 institutions in all the continents and in 90 countries. AUF also has a regional office called « Bureau de l'Europe de l'Ouest et du Maghreb ». Its contribution to the consortium will consist of its networks and its expertise in terms of cooperation related to mobility between Maghreb and the European Union.

B) Please describe the role of the organisation in the project *(max. 1000 characters)*

AUF provides a direct and effective communication channel with local HEI to reach potential candidates and to contribute to a fast diffusion of information related to the Erasmus Mundus Action 2 fellowships. More precisely AUF will help the partner to reach possible Target Group 2 applicants. Exchanges between EU-Maghreb directions can be ensured through its local representations in Morocco, Algeria and Tunisia. Regarding sustainability, AUF is a long standing institution that offers mobility grants (Master, PhD, academic staff) on the basis of calls for proposals in favour of cooperation between HEI in Maghreb and in Europe.

A) Please provide a short presentation of your organisation in relation with the activities covered by the project.

The Euroarab Foundation for Higher Studies has its origins in the agreement reached by the European Parliament in 1984 for the creation of the Euroarab University. On 10th October 1995 the Euroarab Foundation for Higher Studies was set up, an institution unique in the international arena due to its composition and its mission: to create a space for dialogue and cooperation between the countries of the EU and those of the League of Arab States.

Through its activities, the Foundation aims to dedicate all its efforts to promoting Euro-Arab cooperation, supporting academic and cultural activities and disseminating new ideas and trends in Science and Humanities. By means of collaboration agreements, the Foundation maintains relations with more than thirty educational, cultural, research and economic institutions.

Aims of the Euroarab Foundation:

- To encourage teaching, research, information and technical assistance exchanges and to collaborate with institutions from other geographical areas, strengthening ties with the countries of the Euro-Mediterranean basin in particular.
- To promote postgraduate programmes in universities and research centres in Europe and the Arab world, for the exchange and dissemination of knowledge.
- To contribute to economic development and to promote cooperation between Arab and European countries through training programmes in human resources and executive management.
- To introduce into society the idea of respect for Science, and for the values of tolerance, objectivity, freedom, and good practice, favouring the promotion and practice of economic, social and cultural rights as well as civil and political rights.
- To become a provider of useful, up-to-date and comprehensive information and resources through the creation of a network of institutional and social contributors.

B) Please describe the role of the organisation in the project (max. 1000 characters)

- To support the partnership in reaching possible applicants within the partnership (Target Group 1) but especially in other Maghrebian universities and institutions (Target Groups 2 and 3)
- To help to promote the project and its outcomes
- To cooperate in quality assurance issues

### **Brief description of the project:**

The proposed Erasmus Mundus Action 2 Strand 1 partnership for Lot 1 (Algeria, Morocco, Tunisia) will establish an active institution-based mobility network among 3 Algerian, 4 Moroccan and 3 Tunisian universities on the one side and 10 European partners on the other. The project will allow undergraduate, master and doctoral students, post-doctoral fellows and academic and administrative staff to gain valuable experience, knowledge and contacts abroad. Some Maghrebian students will even have the possibility to return to their home countries holding a relevant master or doctoral degree. The project focuses strongly on regional needs in the Maghreb and the development of specific and relevant areas that will be defined by the partners. Furthermore, the project will provide improved education and training opportunities for vulnerable groups and socio-economically disadvantaged students and promote equal access to higher education for students from less developed areas.

The main results that the project is expected to achieve are:

1. To set up an institution-based sustainable Europe-Maghreb mobility network focused on regional needs
2. To train a pool of 170 well-educated and responsible young men and women
3. To provide improved education and training opportunities for vulnerable groups and socio-economically disadvantaged students and scholars
4. To promote equal access to higher education for students and scholars from less developed areas
5. To foster the teaching and research capacity at the partner universities
6. To transfer knowledge, know-how and experience between Europe and the Maghreb
7. To promote common areas of higher education
8. To set up an alumni network
9. To detect and benefit from synergies with partner projects

Since its main goal is to set up a mobility scheme for exchange of students and staff between the European Union and the three Maghrebian countries Algeria, Morocco and Tunisia, the project is conceived as a multilateral network of universities that operates on two levels: a global structural and a local operative level. The global structural level concerns the policy of the consortium as a whole and the common rules and standards required for a smooth organization of the mobility flows. The local operative level concerns the implementation of the mobility flows at each partner university and is dealt with by a Local Operative Unit. The activities to be carried out at the global structural level are conferred to the Partnership Coordination Board (PCB) consisting of one representative of each partner university. For the sake of an increased and simplified operability, the Partnership Coordination Board will elect two committees among its members: The Advisory and Selection Committee (ASC) and the Quality Assurance Committee (QAS). The project coordinator (Universidad de Granada) will establish a Project Management Unit (PMU) at its International Office. Together with the set of Local Operative Units it will be in charge for the implementation and coordination of the project.

The partnership will put into practice a common visibility, awareness rising and promotion strategy for the project and its mobility scheme. Based on the structure of the different target groups, a twofold approach will be followed: A local visibility campaign in order to increase the awareness for intra-consortium mobility flows and a nationwide campaign with a special focus on less favoured regions and social strata. The Project Management Unit will pay regular personalized promotion visits to selected partner universities, embassies of participating European Countries and the EU-Delegations in Algeria, Morocco and Tunisia. A comprehensive website will contain all the basic information about the project and its partners, an explication of the scholarship scheme, the call for applications with clear information about the admission requirements and the selection mechanism, access to newsletters, a section with frequently asked questions, etc.

An impartial and transparent selection process is one of the cornerstones of the project. It will work exclusively on the basis of merit and equal opportunities for all the targeted students and scholars taking into account also the cross-cutting requirements of gender-balance and real participation of socio-economically disadvantaged people.

The International Offices at each partner university will play a key role managing the incoming and outgoing mobility flows of the grantees. They will help and guide the incoming students and scholars, provide assistance for obtaining visa and residence permits, and give all the necessary administrative support and orientation. The Local Operative Units at the host universities will assign a supervisor or contact person to each incoming student or scholar. They will organize regular individual and joint meetings with the grantees that will allow problems to be detected and possibly avoided at a very early stage.

The quality assurance policy will be defined by the Partnership Coordination Board and then entrusted to the Quality Assurance Committee for implementation and monitoring. The quality of the project will be assessed on a strategic and an operative level. The strategic level refers to the achievement of the general objectives and the specific goals. The quality control on an operative level will address the performance of the project during its life time and focus on the detection of weak points and possibilities for improvements. A final global evaluation will be performed by an external expert provided by one of the associates.

The partnership will continuously identify international projects that target or allow for academic cooperation between North Africa and Europe (Tempus, LLP, FP7, ...) and invite them to become a partner project, to determine synergies and possible ways of collaboration. Mutual support will benefit the partner projects gaining not only additional visibility and dissemination channels but also increased operability and effectiveness.

Transfer of know-how and, of course, the expertise gained will be enhanced through a series of workshops and seminars that will usually be organized in connection with the annual Partnership Coordination Board meetings. The list of possible topics includes (a) good practices in student and staff mobility, (b) bi- and multilateral recognition of study periods and degrees, (c) quality assurance in mobility, (d) academic cooperation: joint and multiple degree programmes, etc. On request of the partners, these seminars can also be included in the awareness rising campaigns.

In order to avoid brain drain, the project will adopt a series of measures and agreements for any type of mobility and target group. In particular, the project partners will be encouraged to promote long-term academic collaboration through joint research, teaching and other cooperation activities that will open up an additional window for a prosperous future for the scholars after having returned to their home institutions.
